

Chill out with HVAC contractor Airstron

Airstron, one of South Florida's oldest, most reliable AC contractors provides the highest quality of service.

A full-service contractor in business since 1985, Airstron provides quality service to industrial and commercial clients throughout Southeast Florida.

Their staff of licensed and expert technicians are dedicated to working with clients to formulate a plan that meets every client's needs. From remodeling to new construction, from office space in a historical property to a high-tech office in a modern building, Airstron has the experience and expertise and will put it to work for you as a client.

Services include air-conditioning & heating systems, installation, sales & service, retrofitting, preventive maintenance contracting, 24-hour emergency services, design engineering, commercial refrigeration, and planning and speculation.

Airstron is a proud member of the Mechanical Contractors Association, BOMA, CREW, CIASF, Aventura Marketing Council and other community, industry based organizations, as well as being very active in green initiatives, endorsed by all levels of government. Airstron employs 180 people, including 87 union-trained mechanics, and has 120 service vehicles on the road daily.

Airstron guarantees a two- to three-hour response time, to all service requests.

As a project manager, Airstron oversees proper planning prior to the construction phase of a project, establishing detailed construction schedules that highlight all activities — including purchasing, fabrication and construction work in place.

Airstron has its own plot printer, so they can receive CAD drawings for review or for value engineering.

When it comes to service contracts, Airstron has the right program to fit a client's needs. "If a standard package — inspection, inspection with labor, or inspection with parts and labor — doesn't suit a client's needs, we'll customize one that does."

Airstron is located at 1559 SW 21st Ave., Ft. Lauderdale, Fl. (954) 923 1654 or visit us at www.airstron.com. **QUALITY WITH ECONOMY**
